Good for the Council.
As mentioned elsewhere in THE RECORD, the Council is working hard to secure better sidewalks for the town. This exhibition of push and hustle on the part of that body is commendable and we do hope that they will not weary in well-doing but push to completion the undertaking.

Good Entertainment.
A number of the colored teachers and others, under direction of Prof. Milton Sneed, gave a splendid concert at the Court House Tuesday evening. The singing was remarkably good and the rest of the program very entertaining. There were about as many white people as colored ones present, and all were delighted.

Plenty of Room Now.
Manager Hofmann telephoned from Crab Orchard Springs that he now has plenty of choice rooms, and is simply prepared to accommodate all who come. His large buildings were packed the first of the week and sleeping room was at a premium. The famous old resort is fast winning back her old time reputation.

Old Soldiers, Attention!
All members of the G. A. R. are earnestly requested to be present at the meeting Saturday week, the 18th, as the Post wants to make final arrangements for attending the meeting at Cincinnati. All who expect to go to the Cincinnati meeting must so report at this time, as we must know exactly how many men to make arrangements for. Jas. Dillon, Committee.

Always the Case.
It is singular, but nevertheless true, that when a man stops taking a newspaper he immediately sneaks around to borrow a copy to read. We know of several instances where parties would become very wrath, and to other parties run a paper down, and immediately borrow a copy to read. In some cases they have the gall to ask the postmaster to see a copy in the office directed to subscribers.

Colored Teachers Institute.
The Garrard County Colored Teachers Institute met in the Court House Monday morning at 10 o'clock. There are about fifty teachers present and the sessions have been very interesting and, they say, profitable to them. The institute is conducted by Prof. W. D. Thomas, of Frankfort. Prof. Thomas has a fine education, is a good speaker and, the teachers say his talks and explanations are as fine as they ever heard. Prof. Shelby Lackey is acting as president and Miss Josie Crawford as Secretary. The Institute will come to a close this morning.

The Contest.
Miss Julia Reid, who is managing the arrangements for the contest to be given at the Court House next Tuesday evening, tells THE RECORD she has secured ten of the best speakers in this section of the state, and that the contest will be the best ever given in Lancaster. The Lancaster band will be present and furnish the music for the occasion. The admission fee is only twenty-five cents and you can have a seat reserved by calling at Stormes' drug store. Don't fail to attend.

Civil Service Examination.
W. H. Miller, secretary, writes us to announce that an examination will be held in Danville on some date between October 1st and 15th for applicants for positions in the Internal Revenue Service. The secretary will furnish necessary blanks upon application and they must be filed by Sept. 1st. Write him for further information.

Jake, Swartz and the Mule.
Messrs. Jake Joseph and Ed Bishop, went up in the country Sunday to see some friends and get a big dinner (principally the dinner). On the way back their horse took sick and for a time it looked as if the two men would be compelled to walk off all the flesh gained by the dinner in hoofing it back to town. They put their heads together and came to the conclusion they were in for it. "By and by an Esquire passed along" and Swartz told their troubles. A mule was procured and the trio hit the town at midnight about as hungry as when they started out. The friend who loaned the mule was Olie Terrill, and Swartz says he is the cleverest fellow in the world.

Scott—Rout.
On Wednesday at high noon, at the Clemens House in Danville, Mr. Todd Scott, of Nicholasville, and Miss Alice Rout, of Marksbury, were united in marriage. Rev. J. W. Lynch pronounced the ceremony in his usually impressive manner. Immediately after the ceremony Mr. and Mrs. Scott left for a bridal tour to Cincinnati and will also visit Mrs. Keen, sister of the groom, at Shelbyville, before returning home. The wedding was a quiet affair and also a very great surprise to the many friends of Miss Alice who thought her very unwilling to renounce her life of single blessedness. Many good wishes attend them in their journey and may their lines be cast in pleasant places.

Good for Garrard.
The Louisville daily papers tell of the opening in that city of sealed proposals to construct Lock No. 8, on the Kentucky river. The lowest bid was that of Thomas Sheridan, of West Virginia, who agrees to do the work for \$188,000. The article says all the bids have been sent to Washington for final approval, and it is thought that work will be commenced this summer. It further says the Lock will be constructed twenty-two miles above High Bridge, four miles above Hickman, fourteen miles below Valley View. The dam will be on the Jessamine county side of the river and the abutment on the Garrard county side. The construction of the new lock is to make slackwater for Kentucky river packets to seventy miles above Hickman, opening up to river freighting business a large whisky, timber, coal and iron field.

Special Sea-Shore Excursions, via Chesapeake and Ohio Railway.
The Chesapeake and Ohio Ry. will run the following excursions to the Sea-shore on dates named. The tickets will be good going on regular trains, to which necessary sleeping cars will be attached.

On July 19 and August 11th, to Atlantic City and Cape May, via Washington, round trip rate only \$14.00 from Lexington and correspondingly low rates from other Central Kentucky points. Tickets good eleven days returning.

On July 23th, a round trip rate of \$13.00 will be made to Old Point Comfort, Va. Tickets good going regular trains and good returning twelve days. This is the best time to visit Old Point, owing to the interesting military maneuvers. Send in your name for sleeping cars space or for any information desired. Geo. W. Barney, D. P. A. Lexington, Kentucky.

Fred Kahler Dead.
The many Lancaster friends of Mr. Fred Kahler were shocked to hear of his death Wednesday morning. He had been quite ill of typhoid fever for a few weeks, but no one thought he was so near death's door. Mr. Kahler was probably thirty-five years of age, and had been a man of remarkably good health. He was one of the most prominent citizens in the upper end of the county, where he had resided and been engaged in business for a number of years. Fred Kahler was a friend that was worth having. He was always ready to help anyone in need and it looked like it was his greatest enjoyment when doing a favor for one. He was an enthusiastic member of the Knights of Pythias and a regular attendant at its meetings. The funeral services were held at the Paint Lick church Wednesday afternoon at two o'clock, conducted by Rev. Crawford. The Knights of Pythias then took charge of the remains and, at the conclusion of their beautiful ceremonies, interred the body in Paint Lick cemetery. He leaves a wife and one small child to mourn his loss.

There are a number of people who have been taking THE RECORD and never paid anything for the subscription. As we have no time to go ourselves, nor the cash to employ a collector, we have decided to send the whole layout to a collection agency at Chicago. Those who think they can wiggle out of paying for the paper will find then they are sadly mistaken and will wish, before the agency gets through with them that they had never been born. This is the last reference we expect to make to this matter in these columns.

Letter from Will Dunlap.
SANTIAGO DE CUBA, July 17, '98.
My Dearest Mother:

I suppose you think I am dead, or something worse. Instead I am alive and in good health at present, although I have been in the hospital four days lately with a fever something like malaria. Everyone in camp has had a touch of it. One in my Troop died with it yesterday. I have been printing tablets for soldiers' graves since the big battles. Since the big fight I have been trying to get paper and envelope to write to you, but could not get any, so will write on this scrap, fold it up and try and get it through.

After this, excuse me from war. It's something horrible, and dead and dry all around. That first day (July 1), well ever be remembered by me. Our regiment distinguished themselves— together with the 3rd, 9th and 10th Cavalry, 18th and 10th Infantry, and Roosevelt's Rough Riders, we charged the hill we now occupy, the principal point of vantage. Gen. Miles thanked us personally. The total killed and wounded Americans 3,000; Spanish about 5,000. My troop of fifty lost two killed and five wounded. The Spanish formerly surrendered today and we have Santiago, the American flag going over it today.

We expect to come back to the United States in a few days, but don't know for sure. No Yellow Jack yet. Hobson and his men were released and came by us the other day. I shook hands with two of them. Love to all. Your Son, WILL.

The letter is written on a piece of waste paper and was fastened together with pins. In one corner was written "Soldier's Letter" and no stamp was necessary. Will has many friends here who are heartily glad to know of his good health.

The Sidewalks.
The City Council has recently passed a very wise ordinance regulating the laying of sidewalks in and about town. The conditions of the sidewalks in Lancaster is a disgrace to any town. On many of the prominent streets planks have been put down as a makeshift for a brick walk. In a short time they become pulled up and broken full of holes, nails stick up in them and water stands on them in puddles, making walking on them a dreaded task. In some places no walks exist whatever, you take the mud. It is the wish of the Council to correct this and having this in view, had members go about town and examine and locate the places where walks are needed and make their report to the regular council meeting. The sole idea is to give

the people better walks as well as improve the looks of the otherwise pretty streets. There is no disposition to burden anyone with unnecessary expense but we must have sidewalks of some kind and it is far better and cheaper to put down a lasting walk of stone curbing and brick filling rather than a cheap, unsatisfactory wooden affair always out of repair. Of course there are those who oppose this upon the grounds of expense. Property owners who oppose good walks should pause to think that a good walk in front of their places adds just so much to the looks and value. They should consider the fact that no property is maintained without expense; that if neglected and permitted to fall into decay it loses proportionally in value.

Another important fact should not be lost sight of: On many streets some have plank walks or none at all, while others have good brick walks for all to walk on and enjoy. Is it altogether fair that this should be permitted? If your neighbor supplies you with a good, safe pavement to walk on should you not do likewise? The sidewalk question is not open to argument; we only print this article to point out the necessity of having them. We are reliably informed that it is the intention to enforce this ordinance to the letter, peaceably and pleasantly if possible, through the courts if necessary, treating all alike. From time to time it shall be our pleasure to note the progress of the improvement.

Former Pastor Here.
Rev. C. K. Marshall, who was at one time pastor of the Christian church in this city, was here several days this week and preached at that church Sunday morning and for the noon meeting in the evening. Rev. Marshall has many friends in Lancaster who were delighted to see him again.

FRIDAY, August, 5, - 1898

UNLESS all signs fail, the war with Spain will soon be a thing of the past. That government has asked Mr. McKinley what terms he will accept and the latter has replied promptly. We learn today that Spain has sent her acceptance back and it is in the hands of the Washington authorities. The only trouble now likely to arise is over the disposition of the Philippine Islands. Mr. McKinley is a strong peace man, and, if let alone, will quickly make some concessions to Spain toward hostilities, but the danger is from the politicians making a cat's paw of the president, and making him do some fool thing which will bring about complications which may involve us with other nations. Mr. McKinley has shown his disposition to be led by the nose on one or two occasions, and, as stated above, the only fear now is from that source. I let alone we are satisfied he would tell Spain right now to take the Philippines, leaving us a coaling station, and go and sin no more. The dispatches today say Spain is willing to give up Porto Rico, give the Cubans their freedom, go home and stay there. It looks like this is enough for the United States to ask, but many two-by-four politicians are sending up a howl for more, and there is yet no telling what the outcome may be.

Among the latest reports is one to the effect that General Fitzhugh Lee will be sent in command of fifty thousand troops to garrison the towns of Cuba in case Spain accepts our peace terms. The administration certainly ought to recognize Gen. Lee, and it would be difficult to find an honor too great for him. He is a man of sense and bravery, and his excellent services as Minister to Cuba, and in other capacities ought to be recognized. What he has done has been from a sense of duty and not for the selfish purpose of getting his name before the people, as has been the case with nearly every other volunteer.

A SCRAMBLE is being made by some of the chronic office-seekers for the position of commissioner to the Paris exposition. The usual list of names showed into print are appearing. It would be an exceedingly great surprise and relief to the people if it would "come in style" to appoint men to such positions who have stood back on their dignity and not bored the life out of the public by having their names stuck up as "probably acceptable" places. The political hot bed in Kentucky needs weeding badly. Some of the old sun-flowers in both parties have stood until they are petrified.

AFTER much delay, Col. Dave Colson's regiment of Kentucky volunteers has been mustered into the service of the United States. The gallant Dave has a lot of men who are far from the feather bed type, and one who know nothing else but fighting. They came from a section of the state where children are born with a Winchester rifle in their hand, and shooting to kill comes as natural with them as it is for a duck to walk a water cane. They are not a "coddle" of the whole gold darn Spanish army.

The treatment received by Mike Satter at the hands of Castleman's nursery, is a disgrace to civilization. It was necessary to have charges before they could get Mike out, and the probabilities are that many a Legion man tossed upon his feather bed worrying over what to trump up against him. These fellows may have it in for the Lancaster man just at present, but there will come a time when the fiddler will have to be paid, and it will not be Mike's money with which the violinist is compensated.

We were mistaken in sizing up Teddy Roosevelt as a hot-house plant. It turns out that he is a very "bad" un, and went to Cuba determined to ride in blood up to his bridle bits. He got to see blood spilled sure enough, but as most of it came from the veins of his own men, who, from lack of experience rushed into a trap, the honor will not be as great as the daring warrior hoped for.

THE administration is entitled to much credit for continuing the fighting while the Donas are parleying for peace. We sincerely hope that an understanding will be reached, but our candid opinion is the Spaniards will never come to our terms until a sound whipping has been administered. In other words, as long as they have anything to fight with they will not quit.

THE Courier-Journal asked for expressions of opinions from a number of United States Senators as to the terms on which the United States should consent to end the war with Spain. Most of them favor a demand for territory in the Philippines, several of them, including Foraker, Chandler and Allen, favoring the retention of the entire group.

THE souvenir edition of the Richmond Climax was excellent in every sense of the word. It reflects much credit upon the clever editors and printers Richmond has as fine a lot of newspapers as any town in the state.

If Uncle Sam can get Porto Rico, a coaling station in the Philippines and the freedom of Cuba he ought to be satisfied and let god enough alone.

The War.

Madrid papers are indignant because the United States did not stop hostilities as soon as Spain proposed peace negotiations.

Madrid dispatches of London papers indicate that the Spanish people are indifferent to the terms so long as Spain is allowed to have the Philippines and is not compelled to pay an indemnity.

A Washington dispatch says that both houses of Congress will be called in extra session as soon as Spain indicates its acceptance of the terms of peace.

The American troops are pushing northward from Ponce along the road to San Juan, though the general advance will probably not begin in earnest until the remainder of the army arrives.

The War Department is deeply concerned over the sickness in Shafter's army, and will remove the troops to a well-appointed camp at Montauk Point, L. I. as soon as Gen. Shafter thinks it safe for them to leave Santiago.

Permission has been granted the White Cross Association of America to send hospital supplies and nurses to Manila on the steamer Arizona, which will leave San Francisco in about two weeks. The White Cross differs from the Red Cross in that it is distinctively American.

Over one-third of the American army around Santiago is sick of fever which is spreading rapidly. Malarial, typhoid and yellow fever is plentiful, but the latter is of a very mild type. Rear Admiral Sampson reports that the Spanish soldiers Infanta Maria Teresa is being pumped out, and will soon be floated and taken to Guantanamo.

The retreating Spaniards in Porto Rico are said to be burning plantations and sacking villages. They are accused of wrecking vengeance upon non-combatants and maltreating the women and children. Refugees are flocking into Ponce. All tell of Spanish brutality.

An order has been issued for the sending of an additional entire army division of 15,000 men to re-enforce Gen. Miles and Brooke in Porto Rico. Maj. Gen. Wade will command the division and will select his own regiments. An effort will be made to give equal representation to all States in the Union.

Admiral Cervera's report of the naval battle which resulted in the destruction of his fleet has been forwarded to the Spanish Minister of Marine. The Admiral requires many pages for the telling of his story. Although, as a matter of precaution, the report was transmitted through the Navy Department, nothing will be made public as to the Admiral's statements unless given out from Madrid.

BUCKEYE.

Born, to the wife of James Simpson, a son.

Allen Ray bought at Richmond court Monday, 1 yoke of oxen at \$30, and also engaged some of his cattle at 4c.

Mr. and Mrs. J. W. Brown attended camp meeting at Wilmore, Sunday, and report a large crowd there, and to see so many men on the grounds and no one smoking, was an unusual sight, but it would not have been so, had the privilege been allowed.

The Harrodsburg Sayings has the following regarding a young lady who had a great many relatives and friends in the Buckeye neighborhood: "Miss Laura Teater died at her home in Bohon, Wednesday, after a lingering illness of consumption. She was in the twentieth year of her age and had been for several years a member of the Christian church. The funeral was conducted at ten o'clock, Thursday morning, at Bohon by Rev. David Campbell and the remains were subsequently interred in the family cemetery."

The Rev. W. B. Costley, of Stockbridge, Ga., while attending to his pastoral duties at Ellenwood, that state, was attacked by cholera morbus. He says: "By chance I happened to get hold of a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, and I think it was the means of saving my life. It relieved me at once." For sale by R. E. McRoberts.

Andrew Bogie and daughter, Miss Hattie, and Mr. and Mrs. Herod Ray and son, Reatha, have returned from Mercer, where they attended the funeral of Miss Laura Teater, who was a dear, Christian girl, and who was so anxious to make the exchange from this life to the one prepared for all Christians. Misses Stella Broadus and Lella Hendren were the guests of Miss Hattie Jones, Sunday. Louis Ray is still confined to his room. Miss Hattie Arnold, of near Lancaster, was married by Miss Carrie Brown, Sunday. Miss Marion Ray left Tuesday, to visit her aunt, Mrs. John Barney, near Crab Orchard. L. F. Brown and son, John, went to Buena Vista, Saturday, and attended High Bridge camp meeting, Sunday. R. Ray and family, and Miss Mary House, and sister, went to High Bridge, Sunday. George Berry, the hunting dry goods drummer, was here this week. Our physicians are kept busy attending the sick.

LEAF.

The prospect for corn was never better, than it is in this vicinity.

Farmers say that the wet weather is making the wheat sprout in the stack. Mrs. C. B. Engleman has been quite sick, the doctor thinks she is taking fever.

Rev. Echols, pastor of New Hope church at Paint Lick, will preach here on the 4th Sunday in this month at three p. m.

There is a move on foot to open a road through the farms of Mrs. Wesley West and E. W. Norris, and intersect the county road leading to Lowell, at or near the residence of Mr. Gays.

Born, on the 31st, to the wife of E. W. Norris, a great big boy, and it has been named Buford Parks Norris. The mother and child are both doing well, but Ed is in a precarious condition, it is feared that he will never recover.

It seems that swapping horses is a dangerous business, at least, that is the sad experience of John Clouse and Jack Hollingsworth, two of our neighbors who went to Richmond court day, in July, and traded with James Marcum. They are now in jail at Richmond, awaiting the action of the grand jury to see whether it was a legal trade.

W. B. Adams and family have gone to Rockcastle county on a visit. Mrs. Mattie Finnell, Mrs. Eva Miller, Mr. and Mrs. Chennault Willis, of Richmond, were the guests of Mrs. Ann Broadus, Sunday. Mrs. Annie Adams is visiting at Lancaster this week. Mrs. Sallie Leavell, of Bryansville, was up this week to see her new nephew and niece, Buford Parks Norris, and Blanche Smith.

Old Mr. Frank Galloway showed us some old continental money that is quite a curiosity. It was in two bills, printed on paper about four inches square, one was for eighty dollars and the other for twenty shillings, dated July first, 1773. Mr. Galloway's father, John Galloway, served seven years as a soldier in the revolutionary war, and he was paid in this money and was promised if they gained their independence he would be paid in U. S. money inside of twelve months after independence was declared. At that time he lived in Virginia, and there was no way of traveling only on horse back or afoot, and no way of getting the news, and the time ran out before he knew it. He has five or six hundred dollars of this money. He says his father would get it out every 4th of July, and show it to his children, and tell them that is what he got for fighting seven long years, a great portion of the time without food or clothes. Just think of it, how many fellows that never heard a gun fire, that are drawing pensions now, and this old man went through the hardships of a seven years war and didn't get his monthly pay in money that he could use, to say nothing about a pension.

"I think DeWitt's Witch Hazel Salve is the finest preparation on the market for piles." So writes John C. Dunn, of Wheeling, W. Va. Try it and you will think the same. It cures eczema and all skin diseases. Stormes Drug Store. 1m

MCCREARY.

An old colored woman, aged eighty-five years, known as "Aunt" Ellis Kelley, died last Friday, on Back Creek. She has received a pension for some time, her husband being in the civil war.

R. L. Warner visited in Lexington last week. Miss Lella Hendren, of Madison, visited Miss Stella Broadus, the first of the week. Mrs. Lou Brown, of Shelbyville, is visiting her father, Wat Adams. Mr. and Mrs. Will Long, of Marksbury, and Mr. and Mrs. Geo. W. Saddler and children, of Sycamore Valley, were the guests of M. Hardin, last week. Miss Minnie Wearen has gone to spend a week with friends and relatives in Paint Lick. Mrs. Robert Burton, who had a relapse with fever is better again. Miss Bell Haeckley has gone to Buena Vista to spend a few weeks with relatives.

The Chief Burgess of Milesburg, Pa. says DeWitt's Little Early Risers are the best pills he ever used in his family during forty years of house keeping. They cure constipation, sick headache and stomach and liver troubles. Small in size but great in results. Stormes Drug Store. 1m

J. B. Conn can supply you with hand made Buggies, Road wagons, Surries, etc, he can save you money.

Jerry Pitts near this place has a hog with five feet, the fifth foot projecting from inside of front foot. Also W. C. Montgomery has a mule colt which has a split foot like unto an oxen.

J. B. Conn is prepared to build smoke stacks, and engine boiler machines of all description. Guns, revolvers sewing machines, in fact any thing that is out of repair. Get his price. Also handles Harness, Saddles, Hardware, etc.

About one month ago my child, which is fifteen months old, had an attack of diarrhoea accompanied by vomiting. I gave it such remedies as are usually given in such cases, but as nothing gave relief, we sent for a physician and it was under his care for a week. At this time the child had been sick for about ten days and was having about twenty-five operations of the bowels every twelve hours, and we were convinced that unless it soon obtained relief it would not live. Chamberlain's Colic, Cholera and Diarrhoea Remedy was recommended, and I decided to try it. I soon noticed a change for the better; by its continued use, a complete cure was brought about and it is now perfectly healthy.—C. L. Baggis, Stumpston, Gilmer Co., W. Va. For sale by R. E. The Late-Staying Caller. Friend Staylate makes a call in the evening. Conversation blithe and joyous, and repeated requests for him to remain yet a little while, lead him, not at all unwillingly, to prolong his visit. He looks at his watch with a gasp of genuine dismay, and hurries away slowly at last with profuse apologies for keeping us up until such an unearthly hour. "Oh, indeed, no!" choruses the entire family. "This is early for us! We never think of going to our rooms until an hour later than this." Friend Staylate loiters a moment after he gets outside the gate. Slam! goes the door; bang! wang! slam! go the shutters, calling harshly to each other, "Thought that fellow never would go!" Bang! "Why didn't he stay all night?" Slam! And the rattle of the chain cries, "Gone at last!" The darkness of the dungeon settles down on the house; the family has gone to bed, having relieved its mind by doors and shutters that are ready to tell the truth any time they are given a charge.—Robert J. Burdette in the August Ladies' Home Journal.

Bob Moore, of LaFayette, Ind., says that for constipation he has found DeWitt's Little Early Risers to be perfect. They never gripe. Try them for stomach and liver troubles. Stormes Drug Store. 1m

Field Fencing.

A fence that always keeps its shape because it's built that way—

Nothing but large size heavily galvanized wire made of best Bessemer steel is used in its construction—same in all the so different styles made—turns all kinds of stock, and leaves the stock unharmed while the fence stands strong and sturdy.

THIS hinge-joint makes an adjustable fence and prevents stay wires from being displaced.

crimp makes as tight a fence in summer as in winter, and prevents stay wire from being displaced.

There's no fence that excels it; and few, if any, as good.

Oh, the Pain of Rheumatism!

Rheumatism often causes the most intense suffering. Many have for years vainly sought relief from this disabling disease, and are to-day worse off than ever. Rheumatism is a blood disease, and Swift's Specific is the only cure, because it is the only remedy which can reach such deep-seated diseases.

A few years ago I was taken with inflammatory Rheumatism, which became so intense that I was for weeks unable to walk. I tried several prominent physicians and took their treatment faithfully, but was unable to get the slightest relief. In fact, my condition seemed to grow worse, the disease spread over my entire body, and from November to March I suffered agony. I tried many rest cures, but none relieved me. Upon the advice of a friend I decided to try

S. S. S. Before allowing me to take it, however, my physician, who was a deacon, analyzed the remedy, and pronounced it of purest origin. I felt so much better after taking two bottles, that I continued the remedy, and in two months I was cured completely. The cure was permanent. I have never since had a touch of Rheumatism, though many times exposed to damp and cold weather.

SWIFT'S SPECIFIC, 5711 Pownall Avenue, Philadelphia.

Don't suffer longer with Rheumatism. Throw aside your oils and liniments, as they can not reach your trouble. Don't experiment with doctors—your potash and mercury will add to your disability and completely destroy your digestion.

S. S. S. For the Blood

will cure perfectly and permanently. It is guaranteed purely vegetable, and contains no potash, mercury, or other mineral. Books mailed free by Swift Specific Co., Atlanta, Ga.

There will be no fair at Lexington, Ky., this year. After considering the matter for some time, the gentlemen having it in charge decided to abandon it entirely this year.

An exchange says: "The shepherd who can sleep soundly while his flock is tormented with ticks and other vermin, should be compelled to share his couch with a legion of fleas and bed bugs."

If there is any one thing that a farmer should do himself it is the sowing his seed. If not rightly done all the rest of his year's labor will be in vain. There are some things we should not leave to hired help.—Ex.

FOR ALL WOMEN

NINE-TENTHS of all the pain and sickness from which women suffer is caused by weakness or derangement in the organs of menstruation. Nearly always when a woman is not well these organs are affected. But when they are strong and healthy a woman is very seldom sick.

McLure's Wine of Cardui

Is nature's provision for the regulation of the menstrual function. It cures all "female troubles." It is equally effective for the girl in her teens, the young wife with domestic and maternal cares, and the woman approaching the period known as the "Change of Life." They all need it. They are all benefited by it.

The Michigan crop report for July gives the averages estimated yield of wheat per acre as 16.74 bushels, and is based on over 1,000 reports. It points to a total crop in the State of 28,600,000 bushels. Harvest is two weeks earlier than in 1897.

According to the official report the condition of wheat in Ohio is 86 per cent. Corn is rated at 90 per cent., but the condition is very spotted throughout the State. The condition of horses and cattle is good, and a marked increase in the wool clip is noted.

The Owensville Outlook says: "John S. Hushes, near town, recommends the following for destroying cabbage worms. He used it last year with good success: Bruise a lot of tomato vines and steep them in hot water. When cold sprinkle the liquid portion on the cabbage."

Four good Jerseys should bring you at least 25 pounds of butter a week, worth, in most markets, 25 cents; and there will be market for all your buttermilk. The skimmilk is worth cash to your poultry or pigs. To keep these four cows should cost \$3.53. This leaves a nice income for a skilled dairy woman.

If a new bee queen is in good condition and satisfied with her surroundings she will walk quietly and composedly about the hive and begin her egg laying. The bees are most sure to accept her then; but if she runs around making a noise the bees will surround her and roll up in a ball. Release her by using smoke, and then try her again. This process may have to be tried several times before all goes well.

The wheat crop of the world in 1895, according to the figures of the Hungarian minister of agriculture, was 64,000,000 bushels less than the crop of 1894. The crop of 1896 was 12,000,000 bushels less, and the crop of 1897 was 34,000,000 bushels less, a total falling off in three years of 48,000,000 bushels. The visible supply of the world in consequence was reduced to the lowest, and there was no reserves to call upon.

A farm exchange says either deep plowing or high fertilizing is now the chief work of the tiller of the soil. Mother earth is becoming more and more "hardened," and will not "laugh," any more when her surface is "tickled." Her treasures lie deep, and to them we must make the plow run. There is still poetry in agriculture, but sentimental farming will not make the old soil responsive.

The following amendment to the constitution of the General Association of Baptists recommended by the Recorder: "That no messengers be received from any churches which retain in their membership members who buy and drink intoxicating liquors as beverages; and that the board be forbidden to receive any money from such churches, or from churches which retain in their membership liars or defrauders, or men of impure lives; also that our board be forbidden to receive money from such churches."

Proper cultivation of the growing Burley crop is bound to yield the grower large returns. A fixed purpose to raise good, serviceable tobacco should be the definite aim of every tobacco grower during the season of 1898. No farmer can ever afford to let a tobacco crop take care for itself. Put the principle of "quality, not quantity" into practice this season, and you will have no cause for after regrets.

In considering the adoption of the common remedy of indigo as a curative and general preventative for equine diseases, as has been recalled by different papers recently, horse owners should beware of making the awful mistake of thinking all bluing as commonly used, is indigo says an exchange. Many of the mixtures used in household purposes are dangerous compounds that would possibly cause the death of horses if placed in their drinking water. Genuine indigo, not common bluing, is the drug recommended.—Ex.

"Battleship Kentucky."

Col. Harry Weissinger, chairman of the finance committee of the commission of United States battleship "Kentucky" has taken up the matter of buying for the great ship, when she is formally turned over to the government, a handsome silver service, with all the vim that characterizes his every enterprising move. He wants the silver to be purchased through a popular subscription, and to this end has addressed a letter to citizens of Kentucky, which, in circular shape, will be largely distributed. In part, the letter is as follows: "The great battleship 'Kentucky,' named in honor of the State, was in the presence of the Governor and many representative citizens from all parts of the State of Kentucky, launched March 25, 1893, and will be put in commission some time between January 1st and March 1st, 1899.

The presence of Kentonians at the launching was merely a preliminary recognition of the honor done the State by the Government, and it was universally conceded that something more substantial must be done by the people of Kentucky, and that when the great ship shall have been completed, a handsome silver service, embellished with the arms of the State, should be presented.

The sympathetic tenderness of a loving husband is everything to an expectant mother, especially during her first ordeal. George Layton, Esq., a prominent druggist of Dayton, O., gives the following case:

A customer of mine, whose wife has used four bottles of "Mother's Friend" before confinement, says, after seeing the effects of the remedy, that if she had to go through the ordeal again, and there were but four bottles on the market, she would have them.

"Mother's Friend" is a scientifically compounded liniment which affords certain relief in the various ailments preceding childbirth, and assures proper elasticity to the cords and muscles involved in the final ordeal.

States which have been so honored by the Government. Kentucky, I know, will not be behind, but will rather excel them in the splendor of her gift and the universality of the offering.

The gift will not cost less than \$10,000. It is proposed to secure this amount by popular subscription. Every town in the State of Kentucky should be presented, and with the view of making the subscription as general as possible, I have addressed this letter to representative citizens in every part of the State. No one need fear that his subscription will be too large, nor none so small that it will be overlooked. We want both dollars and dimes, for it is to be the people's gift.

With the gift to the ship will go a list of the contributors, and the place of residence (but not the amount), so in making your contribution please write your name and address distinctly. As chairman of the Finance Committee I ask your personal co-operation in this work; that you will at once take this matter up with your neighbors to the end that the call may be liberally and promptly met.

Yours respectfully, Harry Weissinger, Chairman Finance Committee. N. B.—Address all letters containing subscriptions to Jas. F. Buckner, Secretary Board of Trade, who will acknowledge receipt of same.

PRINCIPLES OF TEMPERANCE.

Will Be Taught in the Public Schools W. C. T. U. Resolutions.

The women's Christian Temperance Union has been much encouraged by its success in having the School Board enforce the law which requires that "Temperance" be made a part of the course of study in the public schools. Every State in the country with the exception of four has this requirement.

Mr. John G. Roach, who is one of the members of the School Board, read the following resolution at the last meeting of the board.

Section 4333 of the Kentucky statutes relating to common schools and the course of study reads as follows: "Section 21. The State Board of Education shall constitute a standing committee, who shall prepare rules, bylaws and regulation for the government of the common schools of the State which shall be adopted and enforced under the authority and direction of the county Superintendents and published a public graded course of study for the common schools, specifying the order of studies, at the time to be allotted to each, which course of study shall be observed by the teacher and enforced by the trustees."

Sec. 21. The instruction prescribed by the board shall embrace spelling, reading, writing, arithmetic, English grammar, English composition, geography, physiology and hygiene, civics, government, United States history and the history of Kentucky. After July 1, 1898, the nature and effects of alcoholic drinks and narcotics upon the human system shall, in all schools supported wholly or in part by the State, be taught as thoroughly as other required studies to all pupils studying physiology and hygiene as a part of this course.

Therefore, said instruction being mandatory, it is now resolved that the Committee on Examination and Course of Study shall make provision for the teaching of this subject as a part of the course for the ensuing year, and shall recommend to the School Board suitable text books.

The resolution was adopted. The Committee on Course of Studies will make its report at the meeting of the School Board next Monday night. What text-books the committee will recommend has not been stated.

Temperance has been taught in a vague way in the schools under the head of Nature Studies, but according to the resolution adopted, a text-book is required, covering the effect of alcohol on the system, so that pupils will be examined and reports sent home as to average acquired just as in the case of all subjects taught in the public schools.

Our Cavalry Is the Finest in the World.

An American citizen thinks the American soldier is the best, for the easy reason that he is an American, but there were three Englishmen whose profession had qualified them to know soldiers of every land, and who were quite as enthusiastic over the cavalry as any American could be as is Frederic Remington, for instance. For one thing, all of our men are physically as large as Life Guardsmen, and what they lose in contrast by lack of gold and pipe-clay, and through the inferiority of their equipment and uniform, is made up to them in the way they ride a horse. A German or English trooper sits his horse like a clothes-pin stuck on a line—the line may rise or sag, or swing in the wind, but the clothes-pin maintains its equilibrium at any cost, and is straight, unbending, and a thing to itself. The American trooper, with his deep saddle and long stirrups, swings with the horse, as a ship rides at anchor on the waves; he makes a line of grace and strength and suppleness; from the rake of his sombrero to the toe of his hooded stirrup. When his horse walks, he sits erect and motionless; when it trots, he rises with it, but never leaves the saddle; and when it gallops he swings in unison with it, like a cowboy, or a cockswain in a racing shell. We Never Will Be Missed. The earth will not in grief disclaim, When you and I are gone, 'Twill hang out at the same old standard When you and I are gone. The little "upper" part we play Will be forgotten in a day; We'll be just like some last year's hay. When you and I are gone. And men will read our epitaph, When you and I are gone, And of its import lightly chaff, When you and I are gone. The world will still be just as glad; Our children—oh, how sad! May call some other fellow "dad" When you and I are gone. —L. A. W. Bulletin.
